Academic Benefits of Private Day Schools

Motivated international students want more than just to improve their English — and that’s what makes Educatus’ SELECT F-1 Private Day High School Program so special! International students take courses for academic credit and receive teaching of the highest quality. While US public schools emphasize creativity and independent thinking, all of Educatus’ public schools offer a core curriculum of English, Math, Science, Humanities, and Arts.

Diploma Year Program

Educatus students entering grade 12 can earn a US Diploma in one year if they pass a combination of required and elective courses. Once graduated from high school, they may then apply to an American university, assisted by the school’s college counselor or Educatus College & University Services (ECUS).

Look for the  icon on a school profile to see if it offers this option!

Many graduates of Educatus’ Diploma Year Program have successfully gone on to study at US universities. In fact, the class of 2018 gained acceptances to some of the top universities in the country, including the University of Chicago, Boston College, and Pennsylvania State University.

Convalidation

Enjoy studying at a USA high school, but eager to return back to your home country? Not a problem! The credits you earned in the US can be applied to your education back home. Educatus will assist you with the process of convalidating these courses.

AP Courses

Advanced Placement (AP) courses are equivalent to a first-year university course, so they’re great for students who want to challenge themselves in a particular subject. Plus, they give you a fast track into higher education!

AP courses typically include Biology, Calculus, Chemistry, English, Spanish and US History, but some schools even offer specialized AP courses in fields like Art, Computer Science, Economics, Environmental Science, Geography, Latin, Music, and Psychology.

Foreign Languages

Beyond English, many international students interested in studying an additional language can typically choose from Spanish and French. Additionally, some private schools also offer German, Latin, Mandarin Chinese, Russian, Italian, Korean, and Japanese.

Specialty Programs

Specialty programs cultivate students’ unique talents. Given that companies like Google and Apple are leaders in innovation, STEM (Science, Technology, Engineering and Math) curricula are very popular with American students right now. Additionally, some schools have specialty programs in fields like business leadership, multimedia, and performing arts.

Academic Excellence Services

According to Education Week, the “average [USA] student-to-school-counselor ratio is 482-to-1; nearly double the 250-to-1 ratio recommended by the American School Counselor Association...students inadvertently may miss out on the best path forward...The fact is that even the most dedicated, high-quality professionals can’t give every student the necessary attention when juggling an unmanageable workload.”

Motivated high school students who aspire to a top tier university need every advantage. Now international students can add Educatius’ Academic Excellence Services to their high school program – for custom coaching to achieve their goals!

These services; optional add-ons to our high school programs, are led by Dr. Sharon Tan, PhD from Yale University. With over a decade of experience advising students, she is uniquely qualified to help young people achieve their very best in both high school academics and college admissions.

Academic Advising Services (Grades 9-12) provide personalized academic mentoring, development of a personalized action plan, and monthly reviews of academic performance.

College Counseling Services (Grades 11-12) provide a college counseling camp (including visits to elite Boston-area colleges), assistance in application preparation, and guidance throughout the college search and application process for competitive colleges.

For US college-bound students, we recommend that they sign up for both the Academic Advising Services and College Counseling Services.

Dr. Sharon Tan received her Ph.D., M.Phil. and M.S. Biology from Yale University where she was awarded the Davenport Hooker Fellowship for Distinguished Academic Standing. Her extensive experience in education and research includes her tenure as a professor at the University of Massachusetts and Curry College, and as a postdoctoral fellow at The University of Chicago and The University of Texas.

With a deep passion for making an impact on the lives of international students, Dr. Tan founded an independent school in Beijing where she personally mentored students pursuing a U.S. high school curriculum. Dr. Tan’s approach enables students to build self-confidence while achieving their educational goals.

Private Schools Arts Programs

All US Private Schools offer art classes as part of the regular curriculum, letting students earn credit as they develop their talents or gain new skills. Besides specialized instruction, many schools offer additional arts experiences through fun, after-school classes and clubs—a great way to meet American students with the same interests.

The range of art courses available is almost as varied as the number of private schools you have to choose from! Virtually every private school has an art option (music, painting/drawing, drama, etc.). Some may even have teachers with professional experience in their craft. You can view each school's individual profile pages for their specific art courses on our website.

Schools with an  icon next to them offer particularly strong arts programs.

Playing Sports at Private Day Schools

For international students, joining an athletic team doesn't just mean advancing your skills – it's also one of the best ways to build lasting friendships!

Most high schools in the US offer several kinds of teams to join. The most common sports are American football, soccer, basketball, volleyball, track and field, and baseball.

Educatus' private day schools may also offer specialty sports such as rowing/crew, ice hockey, tennis, golf, swimming, sailing, skiing and equestrian (horseback riding). Many boast outstanding, state-of-the-art athletic facilities.

Sports are divided into seasons — fall, winter, and spring — which can vary from school to school. Students who want to study for a semester and play a sport should check that school's list of sports during the semester they will be attending.

For a complete list of sports available at each school, browse our school profiles!

What Our Students Say

In the beginning, I was scared that I wouldn't make any friends and it would be boring. I found out, however, it was so easy and it came out so naturally! I met awesome people and I created bonds that will never break. I feel more confident about myself and my abilities. Now I feel like I can face every kind of situation life reserves for me.

– **Luigi M. from Italy**

I feel like here I actually like learning and going to school. When I first came here I decided I wanted to live here the rest of my life so I thought it would be better for me to stay here and graduate from here so I could go to college. My dream for myself is that one day I can become a screen writer and actor. I told my parents one month after moving here, I want to stay here for another year, so my coordinator told me about a private school and I saw it and I liked it. I like the smaller classes, so to have less people to be able to actually talk to my teachers and have them know me is something important to me. Last year, my history teacher inspired me so much, I never wanted to go to college before I met her. I really like my host family, I get to have two sisters. We have a lot of fun together. I really feel like they are my family. It made me a better person to live here. You are going to have a great experience living here. – **Barbara H. from Brazil**

I knew studying abroad would absolutely be the best choice for me because I was so afraid of making big changes in my life. My classmates and teachers at school so were nice and patient. They would help me fix the problems and answer my questions in class. My host parents would also give me a hand when I was frustrated finishing my homework. Everything is new for me and being an exchange student this year really changed every aspect of my life. Every holiday, I celebrated with my host family and the memory of my soccer team might be my best experience in the United States!

– **Srinthorn C. from Thailand**

I'm Saori. My English name is Liza so everyone calls me Liza. I'm from Japan and I'm studying abroad at Arizona Lutheran Academy in the United States. I'm really having fun in my school life. I feel really thankful that I get to try a lot of new things! I started cheerleading last fall for the first time and I noticed myself cheerful. That was the thing that I had never realized before. It is a really good experience to study abroad so that you can find new aspects of yourself by trying new things in a different place. The picture is the thing that I tried also for the first time: theater. I made really good friends in there. And that was such a joy to make something together as an international student. Even if your first language is different than others, your personality don't change that's what I learned a lot this year and that's the reason why I made so many friends. My studying abroad has been amazing and I really like it so I decided to study abroad again! It's such a fun and interesting thing to be in a different culture. I really want to thank to Educatius that I'm having an amazing experience and I can come back here again. – **Saori M. from Japan**

I didn't expect that I would make so many American friends. I pictured myself greeting them, but that was all. I didn't expect that we would become close. Studying in America has changed how I see the world and it broadens my horizons. I'm more mature and independent. I chose my school because of its quiet neighborhood, so I can focus more on academics. – **Joyce Z. from China**

I feel my perspective of the world has been changed. I learned to appreciate my own culture and identity and language, what it's like to live in another country and so much more. The highlights have definitely been trips with my host family and friends. I was lucky enough to travel to Hawaii and Mexico! I miss my family now, but I know I will forever miss and cherish this year!. – **Lene-Mari H. from Norway**

Living with a Host Family

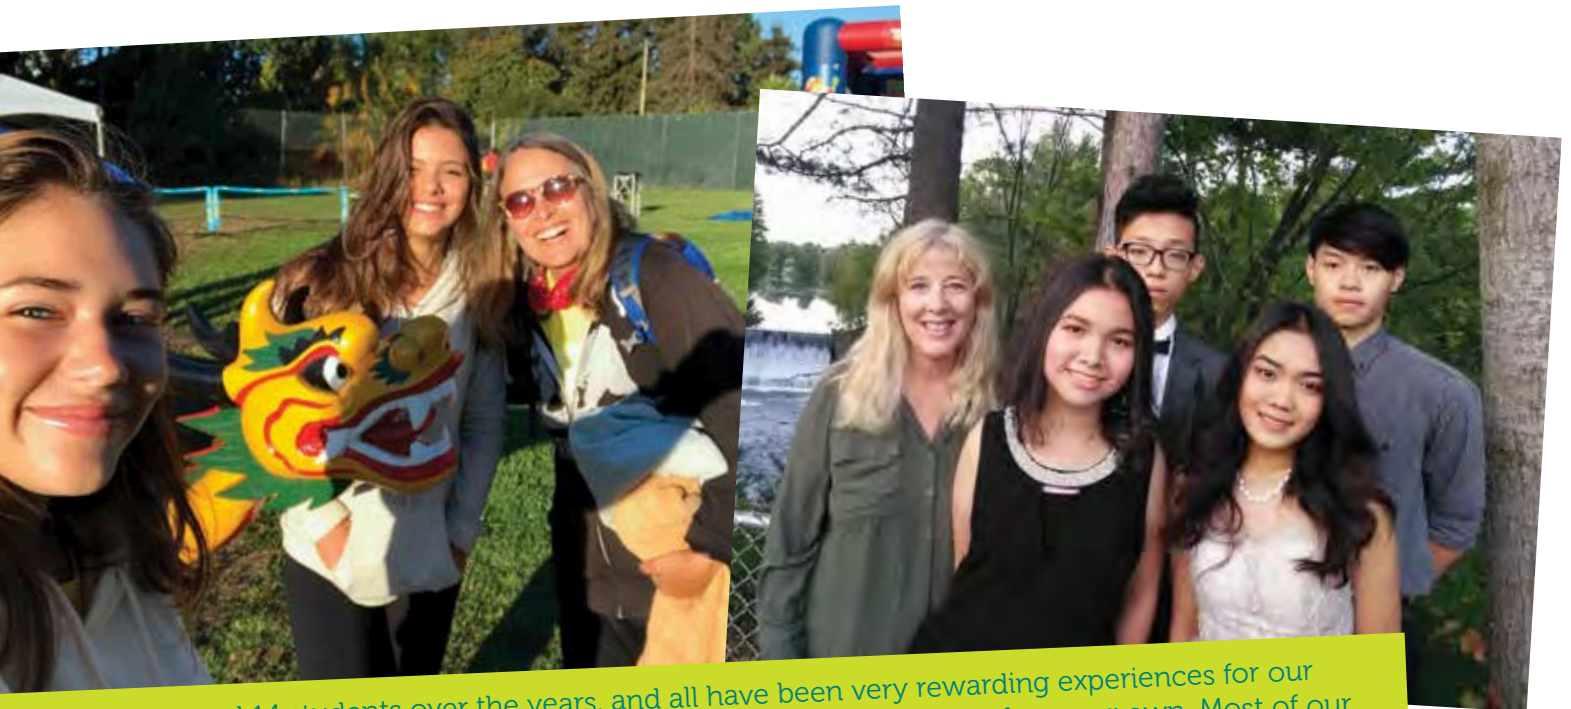

Being away from home for a term, semester, or year can be difficult. Good news, though — your host family is here to help you make the experience the best it can be!

Living with a host family allows international students to immerse themselves into American culture, dramatically improve their English, and stay in a safe, welcoming home. Additionally, since Educatius finds and works with host families directly, we are able to provide support to our students in every aspect of life in the USA.

There are a variety of host families. However, the one thing they all have in common is an enthusiasm for sharing American culture with students.

All Educatius families are carefully screened and most have years of experience as hosts. Each student will be assigned an International Coordinator who will answer questions and address concerns. They'll also advocate for students should any issues arise with the host family or the school. Listed by CSJET (Council on Standards for International Educational Travel), Educatius has a long track record of success of voluntarily following the strictest standard of quality and safety above and beyond J-1 exchange program requirements.

We've hosted 14 students over the years, and all have been very rewarding experiences for our family. It's always great to have cultures in our house that are different from our own. Most of our students come back to visit — it's a relationship for life. You'll get so much more out of it than you'd ever imagine. Clara is very smart, athletic, and gets incredible grades. Clara will always be a part of our family! — **The Greenleaf Family in Massachusetts hosting Clara from Brazil**

We wanted to share some of our favorite moments from this past school year together. We live in a small town in Illinois. We have had two international students with us this year who quickly became forever members of our family - Penny from Vietnam and Patnarin from Thailand. We have had many family day trips to the St Louis Zoo, St Louis Science Center, Botanical Gardens, and Grant's Farm. Thank you very much for this opportunity to become a host family - it is a unique experience I want to share with the world. — **The Bodinet family in Illinois hosting Penny from Vietnam and Patnarin from Thailand**

OUR SERVICE PROMISE

Taking the utmost care of the international students — from start to finish.

At Educatius Group, we care about the well-being of all of our students, and we want to make sure that they have the best experience possible. With that in mind, our Service Promise is a service-level promise that we've implemented for our USA SELECT and Academic Exchange High School programs.

Educatius Group staff will provide:

- *A fast, clear admissions process for applying to schools*
- *A carefully-screened host family who speaks English as their primary language:*
 - *Four weeks before school starts on SELECT USA programs*
 - *Two weeks before school starts on USA Academic Exchange Program*
- *Intensive support during the first 30 days, including airport pickup, practical details (such as setting up a bank account or mobile phone), and interview, meeting, or orientation with international coordinator within 48 hours of arrival*
- *Clear and prompt communication before and after student arrival*

Admissions staff will guide each student through the admissions process, advise about specific school admissions requirements, ensure that each application is complete before sending to schools and facilitate the issuance of the I-20.

Following acceptance, a student will be placed into an English-speaking host family which has been thoroughly screened through multiple processes, including criminal background checks for all family members over the age of 18.

The host family provides a safe and supportive living environment, 3 healthy meals per day, and arrangement of transportation to and from school and extracurricular activities.

Within the first 30 days, our Student Experience team will pay special attention to ensure that students are well taken care of. For the rest of the stay, students will receive the following support:

- *24/7 toll-free emergency support (USA and Canada) +1 800 301 6014*
- *Monthly check-ins from the student's Local Coordinator to document a report on the student's academic performance, host family situation, social and cultural adjustment, and overall progress*
- *On-going support from the Student Experience team to each student on school, host family, or other social life issues*

Academic Exchange (F-1) Program

The Educatius Academic Exchange Program on an F-1 visa is perfect for international students looking for a more affordable program with all the academic benefits of our F-1 SELECT High School program. If you can be flexible and let us choose your destination, you can study in the USA at a Private or Public High School at a lower price. This means that Educatius chooses the high school for the student. However, with schools in great locations like Illinois, Michigan, and New York State, students can look forward to an authentic American high school experience. It's truly the best of both worlds!

Students can attend for an Academic Year or a Semester in grades 9-12, and students entering grade 12 can even earn a US High School Diploma. Our Academic Exchange students have been accepted to colleges and universities like University of New Jersey (Rutgers), SUNY, Texas A&M University, Maastricht University in the Netherlands, and Renmin University of China. Whatever your goals and ambitions may be, our Academic Exchange Program is a fantastic place to start!

Why International Students love this Low-Cost Program

- They are able to earn a US Diploma in grade 12 (and continue to a US university, if desired) or earn academic credit in younger grades
- Our program accepts students ages 14-18
- More flexible than the J-1 Exchange in admission requirements, medical conditions, and deadlines
- Choose a Public or Private High School placement
- Year and Semester enrollments, Fall or January start
- Late applications accepted
- Guaranteed placement for ALL accepted applicants
- Study for more than one year (at a Private Day School) with our 2nd Year Price Guarantee

What Students Say About Educatus College and University Services

I really enjoyed my year at the college! I live at the dorms with three native speakers so I can practice my English a lot and get to know about the country. I enjoy living on my own and getting more confident and independent. The Americans are super friendly. Not only the teacher but also your classmates are respectful and also want to know more about your country. I found lots of good friends and I don't want to go back. I will miss not only my wonderful relaxed life but also my American friends. I would recommend everyone to study abroad! Thank you Educatus for letting me experience this wonderful year in the US. – **Kay O. from Germany**

I felt like I was heard and seen by the Educatus staff. I also felt like I got all the help I could ask for throughout the process. – **Camilla S. from Finland**

Find the Right Fit and Get Scholarships

Scholarships are available to international students applying through our representatives

Educatus Group negotiates significant scholarships on behalf of students at over 125 competitive universities. By applying to our University Scholarship Program, international students can lower their costs by about \$10,000-\$25,000 a year. With Educatus' assistance, students can locate affordable programs and study in prestigious American institutions.

BENEFITS OF THE SCHOLARSHIP PROGRAM:

- Complete ONLY ONE application and receive pre-acceptances to up to 10 institutions
- You get regular updates on your application
- You get personal advice during the process
- Assistance in all areas of college registration and enrollment
- Coordination of housing, meal plans, health insurance, and additional services
- Flexible start dates

DID YOU KNOW?

- Our students have received scholarships that were up to 60% of their tuition.
- Educatus facilitated over \$1.5 million in university scholarships for our students last year.
- Students can save up to \$100,000 over 4 years.
- There are more than \$3 million in scholarships available for 2019!

Community College Program

Two-year colleges can help students improve English skills, save money, and adapt to US education. The Community College Program allows for quality education at an affordable cost. Not only are community colleges less expensive than four-year institutions, but they provide the first two years of coursework necessary to transfer to a four-year institution where students can continue to pursue a bachelor's degree at a top ranked university. Our community colleges accept lower English scores and no SAT, making it easier to apply.

BENEFITS OF THE COMMUNITY COLLEGE PROGRAM:

- Easier admission requirements
- Costs are lower: Tuition at Community Colleges can be as much as 20% to 80% less than at four-year American universities. This is a tremendous cost savings for the first two years of the bachelor's degree
- Small classes, more support
- Opportunity to transfer to a highly ranked university

How to Apply

STEP 1

PLAN YOUR ADVENTURE

Consider your budget.

What kind of experience do you want?
Where do you want to study?

Decide what you want from your experience — and our international representatives will help you find schools that match what you're looking for.

STEP 2

SEND IN YOUR APPLICATION

Get the documents you need — English test scores, school transcripts, teacher recommendations, and personal essay — and submit your application online.

If the school has space, it will almost always accept an application submitted by us! Many students start this process in November or December for the Fall start.

STEP 4

HOST FAMILY PROFILE AND FINAL ARRANGEMENTS

During the summer, you'll find out who your host family will be!

We encourage you to contact them before arrival to introduce yourself.

Additionally, once payment is finalized, your local representative will send you an orientation packet.

STEP 3

GET YOUR I-20 FOR YOUR STUDENT VISA

International students on our F-1 program need an I-20 to apply for a student visa.

Once the school has received your deposit, they'll send you an I-20, which you'll use to schedule a visa interview.

Do this as soon as possible!

STEP 5

ARRIVAL

Once you arrive, your Local Coordinator will be there to help you adjust to your new home and school.

STEP 6

WHAT COMES NEXT?

Many students decide they want to stay in the USA for multiple years. Tell us ASAP if you'd like to re-enroll at your school. We will work with your Local Coordinator to finalize it.

Planning to continue on to a USA university? Our University Scholarship program can help!

Worldwide High School Programs

We are *the* High School Experts!

More than 6,000 international students from 60+ countries studied on one of Educatius Group's high school programs last year and had the experience of their lifetime!

We have three types of high school programs depending on the country.

JAPAN

The SELECT program is a premium high school experience where students can choose exactly the location and the school they'd like to attend. Available in the USA, Canada, UK, Ireland, Australia, New Zealand, France, and Spain.

The CLASSIC program is the typical exchange program where students go abroad to have a cultural high school experience and improve their language skills. The CLASSIC program is available in all countries except Canada.

The Academic Exchange program is a low-cost way for students to get a great academic experience. Providing the academic credit and pathway to university that Classic programs do not offer, the Academic Exchange program is available in the USA, as well as (for non-EU passport holders only) both the UK and Ireland.

AUSTRALIA

NEW ZEALAND

This year by far was the best year of my life. I'll remember all the experiences that I had here forever. My host family was the greatest thing for me; I actually consider them as my family. I really love them. All the friends that I made here I won't be able to forget. Everyone was super nice to me and they were always there to support me when I needed. I really have nothing to complain about this year. – **Gustavo from Brazil**

One of the most amazing experiences I have ever done in my life! I came in a country where I had no idea about anything, people, culture, language...I came completely alone! And "alone" I could learn the "real" of the life and grow up my mind about the world. – **Anna from Taiwan**

This was my first "cold" Christmas. It was the best experience ever. We celebrated with my entire host family and friends. Even my host sister who was in the USA at the time joined in by Skype. I don't regret going to Germany! – **Clara from Mexico**

What Happens After a Year in Private High School?

Students attending our High School programs in the USA have the best time of their lives, and often want to know if and how it's possible to continue studying in the USA. It's easy, with Educatus Group's help!

Re-Enroll at a SELECT Private High School

Any international students who have completed Grade 8, 9, 10 or 11 at a Private School can simply let us know that they would like to re-enroll in their same school, and we will take care of all arrangements with the school and host families.

We recommend that students start thinking about re-enrollment in the Fall, and notify Educatus or their local representative as early as possible. Schools have limited space for international students, so we recommend getting in touch with the local representative even if you are just considering this.

It's Easy!

Step 1: Students let us know they are interested in continuing to study in the USA.

Step 2: We work with their local representative to choose the perfect private or boarding school program to continue.

Step 3: We use the student's original application package to apply to a private or boarding school for their 2nd year.

Academic Exchange – 2nd Year Price Guarantee

Students who would like to continue studying on our low cost Academic Exchange Program can take advantage of our 2nd year price guarantee and enjoy the lowest cost program to study for multiple years on an F-1 High School Program. Let Educatus know early to ensure a 2nd year space, as these programs are very popular with all international students!

Continue to an American University

International students who have successfully earned an American High School diploma in Grade 12 can apply to an American university or college! Our Educatus University and College Services guarantees generous partial scholarships at multiple universities. See pages 80-81 for more details.
