

These three apartments are located in Via Porto Salvo, just a few steps from the Cathedral (about 50m) and only 100m from the sea. Each of the three apartments is of the same size (about 25 m2) and shares the same style of furniture. They come fully equipped with everything you would need for a medium or long stay – including a double bed, a wardrobe, a small kitchenette with two gas hobs, a washing machine, a bathroom with a shower, air conditioning and a balcony.

Near the property are several bars, restaurants, mini markets and of course the sea. The historic centre is not accessible to cars or motor vehicles, so these properties would be best suited to those who want to have a car-free holiday. However, Cefalù train station is about 600m away and the Solemar Academy Italian School is only a 10 minute walk.

If you are attending an Italian language course, and you are looking for an affordable and welcoming lodging in the city center of Cefalu, this is a perfect solution.
